STEEL MAKERS say-"Ford buys the best steel." Other suppliers of materials and parts will tell you-"Nobody checks up as closely on quality and price as Ford."

This means a great deal to you as a motorist. It is our way of safeguarding the interests of every purchaser and it leads to this "The mechanical depreciation on a Ford is less than most cars, especially after the first year."

This is one sign of the extra value in the Ford V-8. Accuracy in manufacturing is another. (The Ford is made to unusually close precision limits.) And there is a long list of fine-car features that are exclusive with Ford in the popular field.

Have you a V-8 engine in your car? You pay \$1645 for it in any other car but Ford.

Does your car have Center-Poise Riding? Ford gives you this modern feature-"a front-seat ride for back-seat passengers." Does your car have fool-proof Super-

Safety Mechanical Brakes? The Ford V-8 gives you this proved design, with 186 square inches of braking surface. Does your car have a genuine steel body structure? Does it have Safety Glass all

around? Ford is the only low-price car that gives you this extra protection without extra cost. You get these fine-car features in the

Ford V-8 because of Ford manufacturing methods and low-profit policy.

\$25 A MONTH, after usual down-payment, bugs any model of the new Ford V-3 car-from any Ford dealer—anywhere in the United States. Ask about the new UCG V₂% per mosth Finance Plans.
